Abstract

Introduction:
According to Thailand 4.0 model or Thailand 4.0, its vision is to drive the country with strategy of development towards stability, prosperity and sustainability by strengthening the strength from within under the concept of "Sufficiency Economy Philosophy" to align with the Thailand 4.0 concept.

Kanchanapisek Wittayalai Nakhon Pathom School (Pratamnak Suankularb Matthayom) has set ideologies and development goal to focus on quality of learners and school with "KPN-S: 4 strategies, 9 Benjawithi, Kanchana way". It’s academic management strategies to international standards of Kanchanapisek Wittayalai Nakhon Pathom school (Pratamnak Suankularb Matthayom) to upgrade and promote the school to World-Class Standard School as the vision of school; "to be a learning organization, promote moral, academic excellence, carry on the Royal Initiatives, Maintaining Thai identity and going forward to the world class standard."

Development Process
"KPN-S: 4 strategies, 9 Benjawithi, Kanchana way" are academic management strategies to international standards of Kanchanapisek Wittayalai Nakhon Pathom School (Pratamnak Suankularb Matthayom) which apply the theory and a participatory management model in managing Kanchanapisek Wittayalai Nakhon Pathom School (Pratamnak Suankularb Matthayom) and follow 3 important steps of the educational development planning process as follows:
1. The study of educational status is analysis and productivity survey, external and internal environments relevant to the educational management. The school uses the principles of SWOT analysis as a key for directing the strategic planning
2. The direction of educational institutes is to define goals, guidelines for the operation of the educational institutes to be visibly according to the status of the educational institution and the needs of the society.
3. Establishing an educational institution strategy determines the institution’s operation by analyzing the external and internal environment using the SWOT Analysis, found that there were more opportunities than obstacles. Therefore, it is in a "conductive" condition and the internal environment has more strengths than weaknesses or in a "solid" stat. Thus, Kanchanapisek Wittayalai Nakhon Pathom School (Pratamnak Suankularb Matthayom) is in conductive and solid conditions which are appropriate for setting strategy and promoting proactive potential with strong internal competencies and external environment which appropriate for implementation.
