Reviewer's Comment for Publication.

(To be published with the manuscript in the journal)

The reviewer is requested to provide a brief comment (3-4 lines) highlighting the significance, strengths, or key insights of the manuscript. This comment will be Displayed in the journal publication alongside with the reviewers name.

In the context of ayurveda Gurvadi Guna refers to a set of 20 intrinsic qualities or properties of substances that are crucial for understanding their effects on the body and for therapeutic applications.

Detailed Reviewer's Report

- 1. Atherosclerosis is the buildup of fats, cholesterol and other substances in and on the artery walls.**
- 2. The buildup is called plaque. The plaque can cause arteries to narrow, blocking blood flow. The plaque also can burst, leading to a blood clot.**
- 3. Discernment, in a comprehensive sense, is the ability to make wise judgements and distinguish between truth and falsehood, good and**

REVIEWER'S REPORT

bad, and good and best, often involving spiritual or moral considerations.

4. It is a process of seeking understanding and making decisions based on wisdom and reflection, often involving listening to both internal and external sources.
5. Pathogenesis refers to the origin and development of a disease, encompassing the biological processes and mechanisms by which a disease or condition arises and progresses.
6. Seems like only theoretical research. Can be continued to research with exploring more scientific uses.
7. There is no results and tables. Summary parts also missed.
8. Review points are given good. But there is no pictures of review parts.
9. Flow charts of informations can be given in review part.
10. References should be in alphabetical order.
