Reviewer's Comment for Publication.

(To be published with the manuscript in the journal)

The reviewer is requested to provide a brief comment (3-4 lines) highlighting the significance, strengths, or key insights of the manuscript. This comment will be Displayed in the journal publication alongside with the reviewers name.

First aid is the immediate care given to someone who is injured or suddenly ill until professional medical help arrives.

Detailed Reviewer's Report

1. First aid involves basic medical procedures, often requiring minimal training, to stabilize the persons condition and prevent it from worsening.
2. Basic life support is a set of emergency procedures designed to sustain life until advanced medical care arrives.
