## **Reviewer's Comment for Publication.**

(To be published with the manuscript in the journal)

The reviewer is requested to provide a brief comment (3-4 lines) highlighting the significance, strengths, or key insights of the manuscript. This comment will be Displayed in the journal publication alongside with the reviewers name.

Betahistine is an anti vertigo medication, often prescribed for balance disorders and to alleviate vertigo symptoms, particularly those associated with menieres disease.

**Detailed Reviewer's Report** 

1. Cinnarizine is an antihistamine that stops you feeling or being sick. It works by blocking the effects of histamine in our brain to reduce the symptoms of travel sickness. It also helps to improve blood flow in the inner ear.

## **REVIEWER'S REPORT**

- 2. Vertigo, a sensation of spinning or a feeling of being off balance, can be managed through lifestyle modifications, home remedies, and medical treatments.
- **3.** Managing vertigo involves addressing the underlying cause, if known and providing symptomatic relief.
- 4. Informations are given good with informative.
- 5. In introduction part can be given flow chart of significant points.
- 6. Results are good with tables. But can be added results with graphs. Would be neat to publish in journal.
- 7. Summary parts must be included.
- 8. References should be in alphabetical order.
- 9. After small corrections eligible to publish in your journal.
