Reviewer's Comment for Publication.

(To be published with the manuscript in the journal)

The reviewer is requested to provide a brief comment (3-4 lines) highlighting the significance, strengths, or key insights of the manuscript. This comment will be Displayed in the journal publication alongside with the reviewers name.

Contraception refers to methods used to prevent pregnancy. It involves the use of various devices, medications or procedures that aim to block fertilization or implantation of a fertilized egg in the uterus.

Detailed Reviewer's Report

- 1. The effectiveness of contraception varies depending on the method used. It is important to choose a method that meets individual needs and preferences and to use it consistently and correctly to prevent pregnancy.**
