Reviewer's Comment for Publication.

This manuscript provides a thoughtful Catholic reflection on the interface between science, AI, and faith. Its strength lies in its clarity and spiritual depth, offering relevant insights for the theological and ethical discussion on technology. It will be a valuable addition to discourse on faith in the digital age.

Detailed Reviewer's Report

The manuscript contributes significantly to theological reflections on contemporary scientific advancement, especially AI, from a Catholic perspective. While the writing is stylistically strong and deeply reflective, the article would benefit from the inclusion of more recent academic references on theology of science and ethics. Abstract may be shortened and made more focused. With minor revisions, this manuscript is suitable for publication.
