Reviewer's Comment for Publication.

(To be published with the manuscript in the journal)

The reviewer is requested to provide a brief comment (3-4 lines) highlighting the significance, strengths, or key insights of the manuscript. This comment will be Displayed in the journal publication alongside with the reviewers name.

Urostomy is a surgical procedure that creates a stoma in the abdomen to divert urine away from the bladder and urethra when they are not functioning properly.

Detailed Reviewer's Report

1. Urostomy diversion allows urine to be collected in a pouch, as the bladder or urethra may be diseased, damaged or removed due to various medical conditions.
2. A nursing program based on Orem's self-care deficit nursing theory focuses on empowering patients to manage their own health through
