Reviewer's Comment for Publication.

This case report shows the successful treatment of a 15-year-old girl with Class II Division 2 malocclusion using a utility arch and Forsus appliance. The treatment was non-extraction and lasted 18 months, resulting in improved bite, jaw position, and facial profile.

Strengths

- ★ Clear step-by-step treatment
- ★ Good results with photos and cephalometric proof
- ★ Useful approach for similar teenage cases
- ★ Compliance-free appliance used

Suggestions for Improvement

- ★ Shorten the abstract and discussion
- ★ Correct long and complex sentences
