Reviewer's Comment for Publication.

(To be published with the manuscript in the journal)

The reviewer is requested to provide a brief comment (3-4 lines) highlighting the significance, strengths, or key insights of the manuscript. This comment will be Displayed in the journal publication alongside with the reviewers name.

Stomatitis is the medical term for inflammation and soreness of the mucous membranes in the mouth. This condition can appear on the tongue, cheeks, palate, lips or gums causing pain and making it difficult to eat, drink or talk.

Detailed Reviewer's Report

1. Stomatitis is caused by a combination of injuries, infections, allergies and underlying health conditions. It may be caused by a viral or bacterial infection.
2. The xerostomia inventory is a multi item questionnaire designed to assess the severity of dry mouth symptoms.
