### Reviewer's Comment for Publication.

*(To be published with the manuscript in the journal)*

*The reviewer is requested to provide a brief comment (3-4 lines) highlighting the significance, strengths, or key insights of the manuscript. This comment will be displayed in the journal publication alongside with the reviewers name.*

Following observation needs to be incorporated:

- The abstract of the paper needs to expand a bit to justify the research idea.
- There are minor grammatical errors observed in the manuscript
- The methodology of the paper needs to be elaborated further to justify the papers intention.
- The formatting of the paper needs to be as per the journals guidelines.
- The referencing of the paper needs to be done as per the journals guidelines and format which seems to be lacking.

### Detailed Reviewer's Report

- The abstract of the paper needs to be elaborated further with keywords that highlight the area and domain of research, also the abstract will needed to highlight the significance of the study that is been conducted here.

## REVIEWER'S REPORT

- The discussions and conclusion part can be separated where the discussions primarily focus on the derivations from the analysis and conclusions can be the way forward.
- The images need to have a caption highlighting their significance and relevance in this study along with the sources. Similarly the tables need to also highlight their significance and the parameters/ methods that were used.
- The parameters included in the methodological part needs to be elaborated along with their significance and how were they determined.
- The literature in introduction where the author talks about different researchers who have contributed can be converted wither into a tabular format or matrix format that makes it easy and significant for understanding.
