

Plagiarism Analysis Report for Your Manuscript

Dear Author,

I hope this message finds you well. I am writing to share the results of the plagiarism analysis conducted on your submitted manuscript, titled Management of Anidra through Panchakarma and Ayurved using Turnitin software.

Plagiarism Scale & Required Action

Below 10% – Acceptable (No revision required)

10% to 25% – Minor Revisions Required.

Above 25% – Major Revisions Required !

Plagiarism Report Summary:

Your manuscript has a similarity index of [20%]. While this is within an acceptable range, some minor revisions may be necessary. Please review the attached report and ensure proper citation or rewording where needed.

Please find attached a detailed plagiarism report outlining the specific areas of concern. We kindly request your prompt attention to the following:

Review the highlighted sections in the report and ensure that appropriate citations are provided for any borrowed content.

Address any instances of verbatim text duplication or substantial similarity by either rephrasing the text or providing proper attribution.

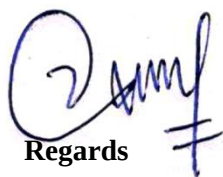

Our commitment to upholding the integrity of academic research is paramount. Therefore, we appreciate your cooperation in addressing these matters diligently and transparently.

As reviewers have approved your paper for publication in our upcoming issue, we request you to submit signed copyright form and payment receipt.

If your plagiarism percentage falls between 10% to 25% (Minor Revisions) or above 25% (Major Revisions), we request you to submit signed copyright form along revised version of your manuscript.

Please make payment before 9th November 2025 to get your paper published in our Volume 13, Issue 10, 2025. We have few slots left for November Issue and is going to be closed within few days.

Thank you for your attention to this matter and for your continued support of International Journal of Advanced Research (IJAR). We look forward to receiving your revised manuscript and facilitating its progress through our publication process.

Regards
