Detailed Reviewer's Report

Manuscript Title

Emerging Technologies and Automation in Construction: Application to a Two-Storey Building

- 1. Paper matching and topic relevance of the research to the scope - YES**
- 2. The presence of good analysis of the subject area- good**
- 3. Paper relevance-YES**
- 4. Conclusion and its validity- Very good**
- 5. Final decision- YES**

Suggestions:

- Standardize references (APA/IEEE as per journal).
- Add future work directions clearly tied to limitations.
- Some figures lack proper resolution and captions.
- Figure numbering and referencing need consistency.
- Improve image quality.
- Ensure all figures are cited in the text and explained.
