Detailed Reviewer's Report

This manuscript is deeply admirable for addressing an important issue, using a clear methodology and presentation of its findings.

Further additional information can be explained as following:

- **Introduction:** Citation of information resources or concerned literature.
- **Methodology:** It might be descriptive cross-sectional study as p value is not calculated for association with determinants. It should be mentioned.
- **Discussion:** manuscript should contain the discussion as comparing the findings of present study with previous researches & literature is very important to highlight the significance of study.
- **References:** Manuscript should contain at least 15-20 references to improve accuracy of research.
