SUGGESTIONS

- Mention the software or tools used for data processing (e.g., Excel, MATLAB, Python).
- Can be added 2–3 basic figures or tables.

- Correct spacing and grammar issues (examples):

“commissioned in” → “commissioned in”

“energy system” spacing consistency

- Ensure uniform formatting:

m^3/s (not $m3/s$)

MW, MWh used consistently

- Maintain SI unit spacing and symbols throughout.

- Ensure reference style matches the journal guidelines.

- Confirm uniform formatting of reports, standards, and journal articles.
