## REVIEWER'S REPORT

Manuscript No.: IJAR-55732

**Title:**

Effect of Temperature, Physical Aging, and Moisture Absorption 1 on Positron Lifetime Parameters in Cured Polyester Resin 2 Studied by Positron Annihilation Lifetime Spectroscopy

**Recommendation:**

Accept as it is .....

**Reviewer Name: Prof Mohamed Syed Fofanah**

### *Detailed Reviewer's Report*

*Abstract:* Good abstract as the Author summarized the goal, objectives, methodology, results and conclusion very well.

*Literature Review:* The Author presented adequate literature to support his work.

*Experimental Methods:* Author followed standard experimental procedure using Positron annihilation lifetime spectroscopy (PALS)

*Results:* Discussion of results and graphs well presented

*References:* Adequate and followed APA Format

**Recommendations:**

- Author should thoroughly read his paper and take care of grammatical errors
- Paper accepted with minor corrections.
