Detailed Reviewer's Report

This research paper tries to identify pedagogical strategies that can be adopted to meet the diverse learning needs of students in inclusive education. In this paper the Abstract is written in a detailed format in which all things have been mentioned properly but the format of abstract writing is not correct. There should be no conclusion in abstract part and also the abstract should be only in one paragraph. However, the keywords are given properly. In the introduction part, the researcher has made link of introduction with the title and has given a detailed background effectively with the citations given properly. But the research gap has not been given properly. In addition to this, the Methodology is given in a proper way. But, research questions or objectives are not given properly. However, Results are given properly and they are given with statistical proofs but there are no educational implications, limitations and further suggestions given in this manuscript. Thus, this paper is accepted after these minor changes suggested above.

Reason for Minor Changes

In this article Abstract is written properly with all important things such as sample, method, findings etc. but the format of writing abstract is not correct. There should be no conclusions in abstract and all things mentioned in abstract should be in one paragraph only. In the introduction part, research questions or objectives are not given properly. In addition to this, Researcher has not given discussion on results in detail and has not made comparisons. Also, there are no educational implications, limitations and further suggestions given in this manuscript. Thus, this paper can be accepted after these minor changes.

Abstract

In this paper the Abstract is written in a detailed format in which all things such as sample, method, findings etc. have been mentioned properly but the format of abstract writing is not correct. There should be no conclusion in abstract part and also the abstract should be only in one paragraph. However, the keywords are given properly

REVIEWER'S REPORT

Introduction

In the introduction part, the researcher has made link of introduction with the title and has given a detailed background effectively with the citations given properly. But the research gap has not been given properly.

Methodology

Methodology is given in a proper way in this manuscript but the researcher has not mentioned the research questions or objectives properly.

Results

The result section is given in a proper way in this manuscript. The findings are given in detail with statistical proofs.

Discussion

The discussion section in this study is given in a detail but the researcher has not made any comparisons of results with previous studies. In addition to this, further suggestions, limitations and implications has not been provided by the researcher by which the validity of research papers decreases and becomes less effective.

Conclusion

Overall the research paper is good and important, but these minor changes must be revised so that this article can be accepted.
